Important - How To Order Fire Baskets

- All Fire Baskets** Select the basket you require by name, size, shape and finish.
- Solid Fuel Baskets** a) If required, select optional ashpan. b) If required, select optional ashpan cover to hide ashpan.
- Gas Fire Baskets** a) Select according to basket, size and fuel-effect. Complete product codes are given for coal-effect fires but if log or driftwood fires are required, insert letter/s into the space/s in codes as follows:
L = Logs DW = Driftwood Example: Code = 8125_ _UC, insert DW for Driftwood effect to give 8125DWUC.
b) All fires specify whether the controls are on the right hand side or front of the fire apart from the following 5 fires where they are normally supplied on the front, but can be specified to be on the right hand side at the time of ordering: Amhurst • Art Deco • Art Deco • Milan • Rochester • Stratford
c) If required, upgrade to remote control with a Standard Remote Control Kit, product code 8455.
d) If required, select optional ashpan cover to hide gas controls. Covers supplied are either black with a polished steel knob or all brass. If you require a black knob please advise customer services on ordering.
e) The measurement (15"/18" etc.) is the grate size not the basket size. Please check with your Gazco retailer for the overall basket size.

NOTES:

- Polished fronts in cast iron/steel refer to finials, fret and legs.
- All fire baskets are made from high quality, natural finish (not lacquered) metals such as polished brass and polished steel. These may tarnish or exhibit signs of rusting over time, during both storage and subsequent use. Gazco recommends, therefore, that your basket is polished after installation and at regular intervals using suitable metal cleaners such as Stovax Brass and Copper Polish and Stovax Steel Cleaner.
- All baskets fitted with gas fires should be installed to BS5871.3 with an adequate flue to clear the opening.
- Most baskets are hand built to order. Please check with Gazco Customer Services for up-to-date delivery schedules.

Please note the Standard Remote Control Kit (8455) is only available for Gas Fire Baskets.

Basket Care Accessories

Polished steel and brass tarnishes on contact with air, especially when also exposed to heat. To help minimise this effect we recommend baskets receive regular treatment with these products:

4110-12	Stovax Traditional Black Grate Polish 75ml (x12)	Available from Stovax Ltd.
5035	Stovax Stainless Steel Cleaner 500ml (x 12)
